REVIEW OF OPERATIONS

The performance of the warehousing operation was satisfactory during the financial year 2014-15.

As reported in the previous year's Director Report, the Company ceased the operation of Container Freight Station (CFS) with effect from May 2012 and since then, has been carrying on the general warehousing operation in the said CFS land with about 120 godowns.

The Board has approved in its Board Meeting held on 1st December 2014 a proposal of the Company for developing an integrated township in the CFS land area of 63.89 acres, where the general warehousing activity was carried on. Consequently, the Company discontinued the general warehousing operation with effect from 1st January 2015 and all the godowns have been completely vacated in the months of January/February 2015. Due to the discontinuance of general warehousing operation during the last quarter for a partial period, the Company's total income has decreased from Rs.947.81 lakhs in the previous year to Rs.835.61 lakhs in the current year, registering a fall of 11.83% as compared to previous year.

However, with the existing huge potential clientele base, the Company is exploring the feasibility of carrying on the general warehousing operation in its adjoining vacant lands.

JOINT DEVELOPMENT AGREEMENT (JDA) WITH M/S.SPR CONSTRUCTION PVT. LTD.

We are pleased to inform that the Company is embarked upon development of a World-class Integrated Township on Joint Development Model, in its main land area of 63.89 acres (previously used for CFS operations) at Perambur. For the same, the Company has entered into a Joint Development Agreement (JDA) on 26.6.2015 on revenue sharing model with, M/s.SPR Construction Pvt. Ltd., Chennai.

The integrated township is planned around a development of a wholesale market ecosystem, co-location of Residential Project development within the township, in addition to being serviced by the finest brands in Healthcare, Hospitality, Education and Entertainment. The project also envisages

construction of Marriage hall, and a Mall. The Project is expected to start by early next year and shall be developed over a period of 7-9 years in a phased manner wherein first phase is expected to be delivered in 36-42 months from the start of construction.

Binny Ltd and SPR Group believes that it can leverage on the opportunity that arises from the current physical and social infrastructure bottlenecks and lack of availability of legal premises in the precinct to Sowcarpet (South India's largest Wholesale Market) which is located just 3 kms away from the Project Site. The Management believes that the property of 63.89 acres having road access from all four sides is the only such large private land within close proximity, and thus presents a strong opportunity for development of alternate wholesale market.

The whole development will be based on concept of smart city with its vision of "Where Business Meets Life". Expected Size of development under current CMDA Regulations would be based on prevailing CMDA norms which are subject to approval. Presently, Ernst and Young is undertaking a study for analyzing socio-economic benefit for creating an alternative to Sowcarpet and suggesting measures to be pursued with Government Authorities to revitalize existing infrastructure and facilitate development of the area.

MANAGEMENT DISCUSSION AND ANALYSIS

i) Industry structure and developments:

With the decision to exploit its vast urban land bank, the Company has entered the real estate sector. This transformation is being undertaken because the Company understood the growth potential of the sector, and is in a position best-leverage the opportunities. While over 75% of the real estate market in India is related to residential housing, The Company is determined to largely focus on this segment while also developing a mixed portfolio that includes commercial property, retail, entertainment and hospitality.

The primary focus is on best utilising the land asset in Perambur area given the location's demand and land usage regulations.

ii) Opportunities and threats:

The residential real estate segment in India has witnessed significant growth in the first decade of this millennium. Thereafter the impact of the global economic crisis was felt by the sector, there was a slowdown and decline in demand, subsequently the demand has started picking up gradually and the industry is in a phase of consolidation. Growth in commercial real estate has been driven largely by the flourishing service sector in the country, especially the IT and IT enabled services (ITeS).

While the real estate sector has strong fundamentals, it continues to be highly dependent on economic cycles. For the residential sector, the prevailing economic condition has a major impact on individuals buying power and the level of income related uncertainties that determine investment risk taking capabilities.

For the commercial segment, the relationship is even more direct, as improved economic activity requires more people to be employed that leads to demand for more office space.

Unfortunately, in the last 2 years there has been a significant slowdown in the Indian economy and the green shoots of a recovery are just being witnessed.

iii) Future outlook

By all indications, the Real estate sector will have turnaround in the next year or so. Indian economy is finally turning the corner with GDP growth pegged at 5.5% this fiscal against 4.7% in the previous financial year, leading to better job and income prospects for salaried employees. This augurs well for the Indian realty industry, which was beset with muted sentiments owing to general economic downturn over the last couple of years. The turnaround in sentiment actually began after a series of incremental reforms and announcements, which benefits Indian industry as well as the real estate sector.

Some of these measures include the incentives announced by RBI for infrastructure financing, the reduction in interest rates on home loans, incentives for affordable housing, announcement of a framework for REITs (Real Estate Investment Trusts) and relaxation of norms for foreign direct investment in construction. The Government's initiative in relaxing complex FDI norms will lead to higher foreign inflows and more liquidity for the sector.

iv) Risk and concerns

While the management of The Company is confident of creating and exploiting the opportunities, it also finds the following challenges:

- Regulatory Risk: The rules, regulations and legalities, demonstration of frequent changes make real estate sector a cumbersome investment option in India.

- Macro Economic Risks: Interest rates, inflation and exchange rate risks are amongst the important macroeconomic indicators.
- Liquidity Risk: The time required for liquidity of project can vary depending on the quality and location of the property.
- Other Risks: Unanticipated delays in project approvals, Availability of accomplished and trained labour force, increased cost of manpower, rising cost of construction.

Market instability and uncertainty may create a slight flutter for the sector. The Current economic outlook, though not dim, seems bleak and can hamper the industry growth. Continuous change in policies will tend to affect investment as well.

v) Internal Audit and Internal Control Systems:

The Company has adequate internal control systems commensurate with its size and nature of business and complexity of operations. Internal Auditors conduct regular audits and report to the Audit Committee, thus ensuring the adequacy and effectiveness of Internal Control. The observations of the Internal Auditors are reviewed periodically on a quarterly basis and due compliances ensured. The exceptional items are reported to the Board.

vi) Financial performance with operational performance.

Financial performance with respect to operational performance is discussed in the main part of the Report.

vii) Material Developments in Human Resources / Industrial Relations

The Company's streamlined reporting system ensures efficiency. The Company continues with the job appraisal system ensuring overall growth of the employees of the Company. The Company still invests in training and development of its employees. The thrust of The Company has been on talent improvement through training programmes. Industrial relations have continued to be cordial throughout the year.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS:

Note 1: SIGNIFICANT ACCOUNTING POLICIES

1.1 Basis of Accounting

(a) The financial statements of the Company have been prepared under the historical cost convention in accordance with the Accounting standards specified by Companies (Accounts) Rules, 2014 issued by the Central Government and the relevant provisions of the Companies Act, 2013 as amended.

(b) All financial transactions have been recognized on accrual basis. The preparation of financial statements in conformity with the GAAP requires that the management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. The Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ from those estimates.

1.2 Use of Estimates

In preparation of financial statements conforming to GAAP requirements certain estimates and assumptions are essentially required to be made with respect to items such as provision for doubtful debts, future obligations under employee retirement benefit plans, income taxes and the useful life period of Fixed Assets. Due care and diligence have been exercised by the Management in arriving at such estimates and assumptions since they may directly affect the reported amounts of income and expenses during the year as well as the balances of Assets and Liabilities including those which are contingent in nature as at the date of reporting of the financial statements.

To comply with GAAP requirements relating to impairment of assets, if any, the Management periodically determines such impairment using external and internal resources for such assessment. Loss, if any, arising out of such impairment is expensed as stipulated under the GAAP requirements. Contingencies are recorded when a liability is likely to be incurred and the amount can be reasonably estimated. To this extent the results may differ from such estimates.

(ii) Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.
